# ACKNOWLEDGMENT

## A Message of Gratitude to the ad Hoc Reviewers

Nearly all the manuscripts we receive are sent out for peer review and each manuscript receives at least two reviews before proceeding with publication. Our ad hoc reviewers have been instrumental in providing rapid yet thorough analysis of papers and have helped shape the literature of developmental biology. Without their support, *Developmental Biology* would not be able to process the quality of papers that it does.

We have listed below our ad hoc reviewers and extend out most sincere gratitude.
